Dhoop Cone Heat Dryer

Benefit:

- Fully automatic, rapid dryer at high speed.
- lower cost of drying.
- Maintain a constant deeping ratio.
- drying of all dhoop cones evenly.
- Dhoop production can be increased up to four times in the same space.
- reduces bending problems.
- decreases dhoop breaks
- Adequate drying prevents the growth of microorganisms.

Salient Features:

- Galvanized pipes and sheets are used to construct a high-speed Dhoop stick fan dryer for drying Dhoop sticks.
- The Fan Dryer's four sides may each hold several Dhoop trays.
- The dryer now features a metal fan to extend the life of the existing one.
- To prevent accidents, the dryer's metal fan's top is protected with a safety guard.
- The dryer includes four castor wheels at the bottom to aid in a smooth movement.
