# Dhoop Stick Fan Dryer

## Benefit:

- In comparison to other dryers, it dries dhoop stick faster in just 60% of the time.
- Here, the issue of uneven drying has been resolved.
- saves a lot of space compared to how Dhoop sticks are usually dried.
- Various sizes of Dhoop Sticks can be loaded into trays one at a time, with a maximum weight capacity of 250 kg.
- Its peculiarity is rapid, consistent drying in all of the trays.

## Salient Features:

- Galvanized pipes and sheets are used to manufacture the high speed Dhoop Stick Fan Dryer.
- On each of the Fan Dryer's four sides, several dhoop trays can be stacked.
- The dryer now features a metal fan to lengthen the life of the existing one.
- To prevent mishaps, the metal fan on top of the dryer has a safety guard.
- The dryer's four castor wheels at the bottom make it easier for it to move about.
